Re: Naval Air Warfare Center - Trenton
Community Environmental Response Facilitation Act (CERFA) Report

Dear Mr. Hurff:

The New Jersey Department of Environmental Protection (NJDEP) has reviewed the Community Environmental Response Facilitation Act (CERFA) Report for the Naval Air Warfare Center - Trenton. Upon Review, NJDEP concurs that the portion of the property that lies east of the railroad tracks, essentially Building No. 1, Building No. 2 and the surrounding areas with the exception of Building No. 72, meet the CERFA definition of uncontaminated property. The remainder of the property, including Building No. 72, does not meet the CERFA definition of uncontaminated property.

This conclusion is based on information presented in the Environmental Baseline Survey which indicated that no hazardous substances and no petroleum products or their derivatives were stored for one year or more, known to have been released, or disposed of in this area. It is further based on the Draft Remedial Investigation Report in which no contamination was detected on that portion of the property.

If you have any questions, you may contact Donna L. Gaffigan, of my staff, at (609) 633-1455.

Sincerely,

A handwritten signature in cursive script, reading "Bruce Venner".
